OVERVIEW

NOC, Oklahoma's first public two-year community college, is a multi-location, land grant institution that provides high quality, accessible, and affordable educational opportunities and services to Oklahoma and in particular to the northern Oklahoma service area. NOC serves nearly 4,000 students through the home campus in Tonkawa, branch in Enid and the NOC/Oklahoma State University (OSU) Gateway Program in Stillwater. Of these students about 80% receive financial aid and/or scholarships, with 75% of NOC students completing their degrees with zero debt.

WORKFORCE TRAINING

NOC provides Associate and Associate of Applied Science Degrees in a variety of programs. NOC works with local industries to provide for workforce specific training.

RESEARCH CAPABILITIES

NOC participates in a number of collaborative research programs related to aerospace, wind, community resilience, and unmanned vehicles.

FACILITIES & INSTRUMENTATION

Northern Oklahoma College is a multi-location institution. The Tonkawa Campus, established in 1901, serves as the administrative center for Northern. All program oversight in academic, financial, student service, personnel, development, physical plant, and information technology is housed in Tonkawa. Over 1,500 students attend class on site, by ITV, or via online. Offering over 20 distinct degree paths with over 40-degree options and an array of courses,

Northern distinguishes itself as a leading community college in Oklahoma. The Tonkawa Campus houses the Sheep Center as well as the Process Technology Programs. The Enid Site, established in 1999 offering multiple two-year liberal arts degree programs to some 800 students each semester. The Enid site is home to The Mackie Planetarium and has an observatory. The Astronomy program works in conjunction with telescopes around the world. The Stillwater Site, established in 2003, serves multiple missions to area students. Primarily a Gateway Program, the Stillwater site serves students who would otherwise not be admitted to Oklahoma State University. The site, however, also admits students seeking general education courses that transfer to other comprehensive colleges and universities. Northern Stillwater admits approximately 300 new students each fall and spring semester, serving some 1,700 students. A new Classroom Building completed in August 2018.

PAST PERFORMANCE

NASNTI Title III Grant ““Connecting Students to Promising Pathways” – 2021 - Current NASNTI Title III Grant “Merging Traditions and Technology: Engaging Native American and Low-Income Students to Complete College” – 2016 to 2021; "Great Plains Center of Excellence," Department of Energy Award No. 2866-1514; IAC, Department of Energy, Award No. 1-508962-02; RURAL CONFLUENCE: Communities and Academic Partners Uniting to Drive Discovery and Build Capacity for Climate Resilience.
